Standard Reversible Pivot Pin

Each Hinge contains a reversible Pivot Pin. The hinge comes with the Pivot Pin set for regular closing position (wall meets door at 90°). The opposite side of the pin has been machined at 5°, and will provide tighter door closure (85°) by simply rotating the Pivot Pin half-way around.

Custom Pivot Pin

Custom Pivot Pin are available for "off-angle" installations. If the Standard Reversible 5° Pivot Pin contained in the hinge does not assist in closing the door to the position desired, you may specify the angle needed for a Custom Pivot Pin.
